Figure 1 shows a 4x4 grid with x and y axes ranging from 0 to 3. A red cell is at (1,1) and a green cell is at (2,2). The grid is divided into three regions: a red region (1,1) to (2,2), a green region (2,2) to (3,3), and a blue region (1,1) to (0,2). The regions are labeled a_1 , a_2 , and a_3 respectively. The regions are separated by black lines. The regions are labeled a_1 , a_2 , and a_3 respectively. The regions are separated by black lines.
