Figure 1 shows a 4x4 grid with X and Y axes. The start cell is at (1,1) and is red. The goal cell is at (2,3) and is green. The grid is divided into three regions: a red region (start cell and its neighbors), a green region (neighbors of the red region), and a black region (the rest of the grid). The path from the start cell to the goal cell is highlighted with a green arrow.
